

REMARKS

In order to place this application in condition for a complete action on the merits, the specification has been suitably revised to correct informalities, provide antecedent basis for the claim language, and bring it into better conformance with U.S. practice. Original claims 1-2 have been amended in formal respects to improve the wording and bring them into better conformance with U.S. practice. New claims 3-15 have been added to provide a more comprehensive scope of coverage. Adequate support for the subject matter recited in the newly added claims may be found in the specification as originally filed.

Early and favorable action on the merits are
respectfully requested.

Respectfully submitted,
